THE
Garden
RESIDENCES

Home is where your story begins. Where you choose to live, is equally as important as what your lifestyle will be when you are living there.

The Garden Residences, overlooking one of Singapore's best known and much-loved neighbourhoods, Serangoon Gardens, presents a life that has been built on these fundamentals.

Location, one that surrounds you with lifestyle, shopping and F&B establishments. ***Connections***, with a transport network that takes you anywhere you need to be in minutes. ***Education***, because the pursuit of learning at any age should never be undervalued. ***Architecture***, in creating a home that stands the test of time and draws inspiration from the gardens outside, to create a life that's well-lived inside.

A home is more than just a roof over your head, it holds a lifetime of memories. Where growth and wellness are integrated to create an energised, holistic environment for you and your loved ones.

There is no better investment than in your family or yourself, and no better place to put down your roots.

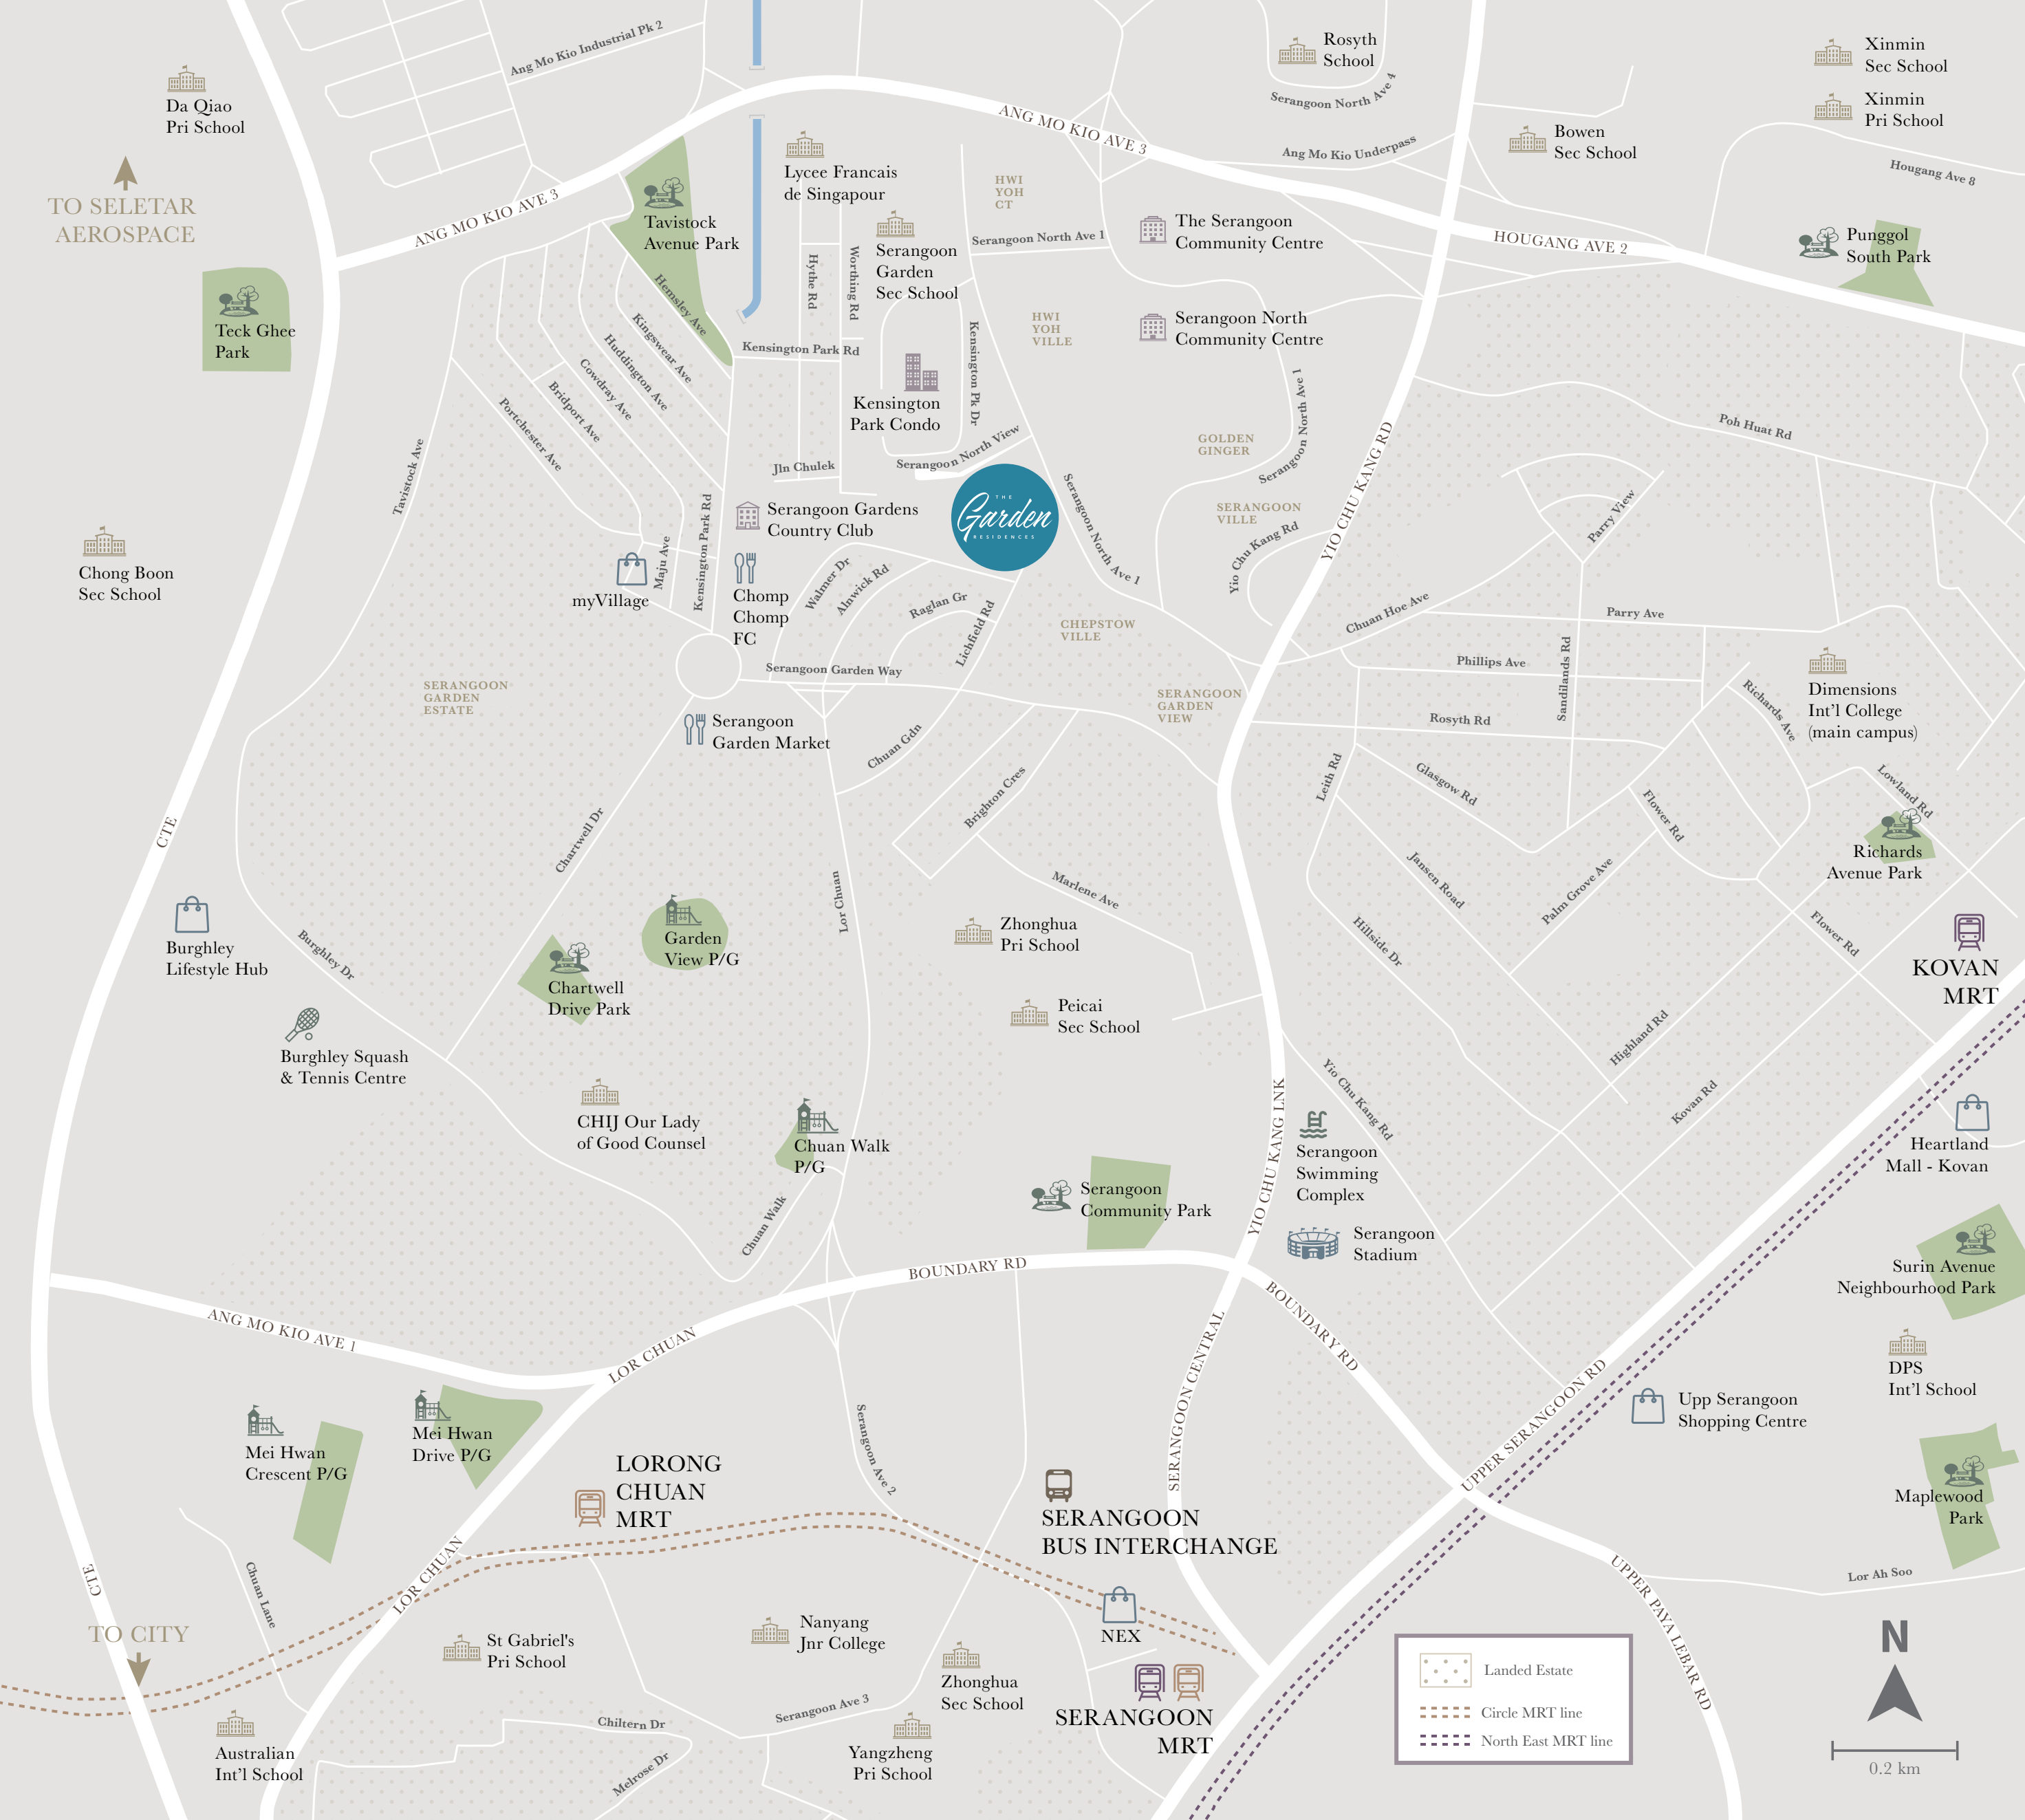

THE GARDEN RESIDENCES.

NOTES TO SPECIFICATIONS

- a. Marble/Compressed Marble/Limestone/Granite**
Marble/compressed marble/limestone/granite are natural stone materials containing veins with tonality differences. There will be colour and markings caused by their complex mineral composition and incorporated impurities. While such materials can be pre-selected before installation, this non-conformity in the marble/compressed marble/limestone/granite as well as non-uniformity between pieces cannot be totally avoided. Granite tiles are pre-polished before laying and care has been taken for their installation. However, granite, being a much harder material than marble, cannot be re-polished after installation. Hence, some differences may be felt at the joints. Subject to clause 14.3, the tonality and pattern of the marble, limestone or granite selected and installed shall be subject to availability.
- b. Air-Conditioning System**
To ensure good working condition of the air-conditioning system, the system has to be maintained and cleaned on a regular basis by the Purchaser. This includes the cleaning of filters, clearing of condensate pipes and charging of gas. The Purchaser is advised to engage his own contractor to service the air-conditioning system regularly.
- c. Television and/or Internet Access**
The Purchaser is liable to pay annual fee, subscription fee and such other fees to the television and/or internet service providers or any other relevant party or any relevant authorities. The Vendor is not responsible to make arrangements with any of the said parties for the service connection for their respective channels and/or internet access.
- d. Materials, Fittings, Equipment, Finishes, Installations and Appliances**
Subject to clause 14.3, the brand, colour and model as specified for all materials, fittings, equipment, finishes, installations and appliances to be supplied shall be provided subject to the Architect’s selection and market availability.
- e. Layout/Location of Fan Coil Units, Electrical Points, Television Points, Telecommunication Points, Door Swing Positions and Plaster Ceiling Boards**
Layout/Location of fan coil units, electrical points, television points, telecommunication points, door swing positions and plaster ceiling boards are subject to the Architect’s final decision and design.
- f. Warranties**
Where warranties are given by the manufacturers and/or contractors and/ or suppliers of any of the equipment and/or appliances installed by the Vendor at the Unit, the Vendor will assign to the Purchaser such warranties at the time when vacant possession of the Unit is delivered to the Purchaser. Notwithstanding this assignment, the Vendor shall remain fully responsible for the performance of its obligations under clauses 9 and 17.
- g. Web Portal of the Housing Project**
