

ATELIER, ITS EVOLUTION

The classic French atelier, where young people began their journey to becoming successful artisans. And where precision in skills, a meticulous eye for detail and refined taste were passed down from masters to young apprentices. Thus, it was often seen as a private school for aspiring artists.

Today, the atelier has evolved into a creative hub to learn and work with the trendiest designers, artists, and architects. Sophisticated, elegant and always avant-garde, it is an incubator for emerging talents, where imagination becomes reality in a unique, energetic, and artistic space.

NEWTON, THE REVOLUTIONARY GENIUS

Sir Isaac Newton was one of the greatest mathematicians and physicists of all time. His scientific and mathematical theories and discoveries challenged centuries of thinking and opened new doors into the way we see the world today.

Newton's theories on time, space, place and motion are still studied and advanced upon in modern classrooms and contemporary scientific research. These were expounded in his book the Principia, which is considered as one of the most important works in the history of science and the beginning of a great revolution in physics.

PRELUDE:

HOMES FOR EVERY GENERATION

From our humble beginnings as a leading rubber company in 1911, we have diversified into the development of landed property in the Fifties. Bukit Sembawang Estates Limited (BSEL) was incorporated in Singapore in 1967. Listed on the Singapore Exchange, BSEL now focuses on property development, investment and other property-related activities.

For over half a century, we have been building some of Singapore's most well-known residential developments including more than 4,600 landed homes in Seletar Hills, Sembawang Hills, Luxus Hills and more than 1,800 residences units in Singapore's prime locations such as Districts 9 and 10.

As one of Singapore's pioneers in residential property development, we have established a reputation as a trusted developer of fine quality homes with great value. It is through this unwavering commitment that we have won numerous Accolades and Awards through the years.

Our exacting standards have delivered not just houses but distinctive lifestyle homes where lives revolve memorably around. Homes that are characterized by thoughtful planning, outstanding design, fine detailing and quality finishing - often surpassing the expectations of discerning home-buyers.
